

“Do you remember the time when people were proud of what they did? Everything made by hand? Our collection undertakes a remarkable selection of historic high performance racing airplanes and racecars, covering some of stunning models of the past Century. Unlikely to be repeated, our limited editions represents once in a lifetime opportunity to proudly hold and play with these legends on wings and wheels.”

The desire to perform an item for more detailed and realistic scale forced us to come up with a RC racing models powered by small two or four stroke gasoline engines. No matter if it's an racing airplane, a racecar or even a race-boat once our goal is the same; scratch manufactured masterpieces configured as RTR (ready to run). Each model is a radio-controlled keeping top quality and performance in mind with the same stamina of the real ones, the fascinating speed racing machines of the Past-Century. For a better accuracy and good looking we use the same materials and construction techniques used by remarkable craftsmen and coachbuilders of a bygone era; Probably the major difference you will spot is in scale.

The RC model concept is not new at all but the way we adopt and use it with ancestral knowledge is. Every single piece is handmade also is the technics applied; the steel welded frames, the handy panel beating, etc.

“Truly and deeply with the Montcraft we intend more than a moving scaled and mechanical masterpiece. Intentionally we want homage some forgotten creative ancestral masters who lived in the past-century without the complex technologies were the expertise knowledge of some people and adventured spirits of others shaped fearless engineers and craftsmen able to design and forge a new way that change the entire humankind destiny and decidedly more than been well succeed they left us a priceless and a stunning legacy. What they done, it's just remarkable!

We are honored to invite you to explore our official web page. Hope you will like this short visit as much we are enjoying manufacturing these scale racing models for you! As a friendly client once said; - *“are you thinking on going to race? go classy!”*. Ladies and Gents start up your engines and enjoy your ride!

The same we are trying doing, replaying the history and not writing a fairytale, even if for awhile, you consider our models magical. If so even better!

By shame some stunning racing models have been forgotten during the last decades, others by disgrace went been lost forever and some of few, thankfully has been rescued and recovered were can be found around the world in Museums or in Individual Collections keeping in safe and preserved such mechanical pieces of history. Meanwhile every single one has the same common point; - none can be touched or even driving by you. Is here where we come up, once only few people can afford to reach one of this extremely rare and expensive full-scale specimens in auctions, our rule is manufacturing racing models to be stand in your home podium. Even our own original spices probably will get a special place as well. Whatever you could choose definitely what we do is not a toy at all, do not be fooled by the size; what you will hold is a running radio-controlled model like you never experienced before allowing you relive the golden age of speed & racers.

Each of our racing models is a living beast filled up with lots of individuality, soul and character. None is equal to other, but in every single one, soon the engine is fired-up, you will listen a loud and anxious breathing of a rushed metal “cheetah” ready to run. The power of our models is literally at your fingertips waiting to be brought to life!”
